

KRAFT® Macaroni & Cheese Game Rules For 3 to 6 Players, Ages 8 & Up, 20 Minutes

Contents

54 Cards, 250 Noodles, 1 Noodle Meter,
1 Cheesasaurus Rex Mover, 2 Dice

Set Up

- Shuffle and deal the whole deck so everyone has the same amount of cards. If there are extra cards, set them aside, out of play.
- For example, in a 4-player game, there will be two extra cards. In this case, remove a 6 card and an 8 card from the deck. In a 5-player game, there will be four extra cards.

1

In this case, remove a 5, 6, 8 and 9 card from the deck.

***Note: In a 3-player game, each player will have 18 cards. In a 4-player game, 13 cards. In a 5-player game, 10 cards. In a 6-player game, 9 cards.**

- Each player picks up their cards. (We recommend putting the cards into numerical order.)
- In a 3-player game, everyone takes exactly 50 Noodles; In a 4-player and 5-player game, everyone takes 45 Noodles; In a 6-player game, everyone takes 40 Noodles. Put extra Noodles aside, out of play.

2

- Place the Cheesasaurus Rex Mover on Level 1 of the Noodle Meter on the back of the box.

- Each player tosses one KRAFT Macaroni & Cheese Noodle into the center, near the box, starting the Noodle Pot.

- Place the dice nearby.

- The player who most recently ate KRAFT Macaroni & Cheese goes first.

How to Play

- Take turns, going clockwise. On your turn, roll the dice and add them together. If you have a card

3

which matches the dice total, play it by laying the card face up in the center, starting a discard pile. For example, if you roll a 4 and a 2 and you have a 6 card, play it.

- If you don't have a card that matches the dice total, everyone else who has a matching card gets to play their card into the discard pile. Your turn ends.

***Note: If no one has a card that matches the dice total, play continues clockwise.**

- If your dice roll totals 7, shout "Noodle Boost!" Move the Cheesasaurus Rex Mover up on the Noodle Meter to Level 2.

4

- Everyone tosses two Noodles into the Noodle Pot.

***Note: If you have a Cheesasaurus Rex card, you may choose to play your card instead of putting Noodles into the pot. See details below for Cheesasaurus Rex cards.**

- The next time a 7 is rolled (by anyone), shout "Noodle Boost!" and move the Cheesasaurus Rex Mover up to Level 3.

- Everyone tosses three Noodles into the pot and so on, until the Noodle Meter is maxed out and the Cheesasaurus Rex Mover stands at Level 7.

5

- Once the meter is up to 7, players must toss seven Noodles into the Noodle Pot every time a 7 is rolled for the rest of the game.

Cheesasaurus Rex Cards

- If you have a Cheesasaurus Rex card, you may (but don't have to) discard it instead of tossing Noodles into the Noodle Pot during a Noodle Boost.
- You may want to save your Cheesasaurus Rex cards for later in the game, as the number of Noodles you must toss increases as the game goes on.

6

***Note: Anyone can play a Cheesasaurus Rex card when a 7 is rolled.**

- If you run out of Noodles, you are out of the game. Everyone else continues playing.

Winning

- There are two different ways to win this game:

1.) If you are the first player to go out by playing your last card, you win! You get the Noodle Pot!

***Tiebreaker Rule: If more than one person plays their last card at the same time, those players split the**

7

Noodle Pot evenly and count their total number of Noodles to determine the winner.

2.) If you are the only player left with Noodles, you win! You get the Noodle Pot!

***Tiebreaker Rule: If more than one person goes out of noodles at the same time, those players count their cards and whoever has the fewest cards is the winner.**
